

Advance Process Control Course Curriculum Map

	I.T. Specialist	APC Engineer	Process Engineer	Operator	Operations Supervisor	APC Manager / Lead
Beginner	APC100 2 Days aspenONE Advance Process Control - Installation and Configuring	●	●			
	APC101 5 Days Introduction to Aspen DMCplus for APC Engineers		●			
	APC105 5 Days Introduction to Aspen DMC3 Builder for APC Engineers		●			●
	APC120 2 Days Operating and Maintaining Controllers Online			●	●	●
	APC160 2 Days Aspen Process Recipe and Process Sequencer		●		●	●
	APC170 3 Days Aspen IQ - Developing and Deploying Inferential Soft Sensors for Industrial Processes		●			
	APC185 3 Days Introduction to Nonlinear Controllers Using Aspen DMC3 Builder		●			
Intermediate	APC210 3 Days Aspen Watch Performance Monitor - Real Time Monitoring and Maintaining Controllers Online		●	●		●
	APC220 0.5 Day Sustain Peak Performance and Reduce Maintenance Workload		●		●	●
	APC221 0.5 Day Improve Tuning and Robustness of Controller Using Aspen DMC3		●	●	●	●
	APC230 2 Days Aspen DMCplus - APC Project Pretesting Using Virtual Plant		●			●
	APC240 3 Days Aspen DMCplus - APC Project Step Testing and Commissioning Using a Virtual Plant		●			●
	APC250 3 Days Aspen DMC3 - Aspen Calibrate and Aspen Adaptive Modeling		●			●
